

LENAWEE COUNTY MEDICAL CONTROL AUTHORITY

March 16, 2016

To EMS Agencies,

The quarterly QA topics have been set for 2016.

ALL Agencies: Protocol Compliance

- 1st Quarter: Overdose/Poisoning
- 2nd Quarter: Respiratory Distress-Adult and Pediatric
- 3rd Quarter: Cerebrovascular Accident (CVA, Stroke)
- 4th Quarter: Chest Pain

ALS Agencies: Procedure Protocols-Skill Based

- 1st Quarter: Intubation and secondary airway attempts, success, and failure rates .
- 2nd Quarter: CPAP utilization and patient condition pre and post application
- 3rd Quarter: IV attempts, success, and failure rates
- 4th Quarter: 12 lead ECG performed per protocol, Number of STEMI's reported, number of 12 leads transmitted to ER electronically, number of patients transported directly to cath lab facility vs. number of patients transported to closest local facility.

MFR, BLS & LALS Agencies: Procedure Protocols-Skill Based

- BLS Agencies: CPAP, Epi-pen, Narcan and supraglottic airway attempts, success, failure rates, and Medical Incident Reports need to be turned in for QA review for every use or attempt. This will require agencies to perform QA and submit information at the next regularly scheduled Medical Control meeting.

ALL Agencies: Cardiac Arrests

- All Cardiac Arrests will require agencies to perform QA/QI and submit information, including medical incident report, at the next regularly scheduled Medical Control meeting.

ALL MICU transport medical incident reports must be submitted for QA review.
